PROFESSIONAL SUMMARY

Full-Stack, Frontend, and Mobile Engineer with 4+ years of experience building scalable web and cross-platform mobile applications for startups across Nigeria, the US, and Canada. Proficient in React.js, React Native, Node.js, and TypeScript, with a track record of shipping real-time features, payment integrations, and performance-optimized REST and GraphQL APIs in production. Skilled in Remix, CI/CD pipelines, Docker, and modern DevOps tooling. Expanding into AI and ML with LangChain, Hugging Face, and Generative AI. Open to remote full-time roles or relocation.

WORK EXPERIENCE

Full-Stack Developer — Jorsas Tech LTD

October 2025 - Present

Remote, Part-Time | Lagos, Nigeria

- Built and maintained Iungo (iungo.app) — a real-time video call and creator monetisation platform (Web, iOS, Android) — using Node.js, Express.js, MongoDB, Next.js, and TypeScript, scaling to 10,000+ creators and 500,000+ connections.
- Engineered cross-platform mobile apps with React Native and Expo; integrated Paystack and Stripe payment gateways in close collaboration with designers and product managers.
- Reduced average API response time from 2s to 1s through MongoDB query optimization and improved data modelling.
- Improved frontend load speed by 80% via code splitting, lazy loading, and asset optimization verified through Lighthouse audits.
- Deployed and maintained production applications serving 500+ active users.

Full-Stack Engineer (Intern) — Saltech Apps

July 2025 - September 2025

Remote, Full-Time | Pittsburgh, PA, USA

- Contributed to full-stack development of Dara Recovery (dararecovery.com) — a platform connecting users with certified recovery coaches — using Remix (React Router), REST APIs, and TypeScript.
- Built key UI screens and integrated OpenAPI-powered backend services, handling authentication flows and improving application performance through systematic debugging.
- Participated in code reviews, picked up sprint tickets independently, and collaborated closely with engineering and product teams in an agile environment.

Frontend and Mobile Engineer — Syntax Ready Inc.

July 2023 - June 2025

Remote, Full-Time | Hamilton, Ontario, Canada

- Developed high-performance React.js web applications, optimizing state management with Zustand and data fetching with React Query, reducing API load time by 35% from baseline.
- Built accessible, responsive UI components with Tailwind CSS and ShadCN, ensuring cross-browser and cross-device compatibility.
- Integrated a Java-based backend via RESTful APIs, used Docker to maintain dev/production environment parity, and managed version control and team collaboration through Git.

Frontend Engineer — Reinvertise

May 2022 - June 2023

Hybrid, Contract

- Developed and maintained a multi-featured web platform using React.js and TypeScript, refactoring legacy code to improve maintainability as the feature set expanded.
- Integrated and optimized RESTful APIs using Swagger and React Query, significantly reducing user-reported loading delays.
- Built modern, responsive UIs with Tailwind CSS and ShadCN UI, applying best practices in state management and component reusability.

PROJECTS

Iungo — Real-Time Video, Chat, and Creator Platform (Web, iOS, Android)

iungo.app

React Native | Next.js | Node.js | WebRTC (Agora) | LiveKit | WebSockets | Paystack | Stripe

- Built a cross-platform creator monetisation platform where users book paid video calls with verified creators. Features real-time video, group chat, low-latency streaming via Agora SDKs, and in-app payments. Serving 10,000+ creators and 500,000+ connections.

Didi Beauty — Mobile E-Commerce App (iOS and Android)

[App Store](#)

React Native | Expo | GraphQL | Shopify | Stripe | Clerk

- Partnered with the product team to design and deliver a full cross-platform mobile e-commerce app — product browsing, cart logic, checkout, and payment — through to App Store and Play Store deployment.

DietAfrik — Payment-Integrated E-Commerce Platform

dietafrik-frontend.vercel.app

Next.js | TypeScript | Node.js | MongoDB | Paystack | Stripe

- Designed and deployed a full-stack e-commerce platform with an AI-powered product recommendation engine, secure Stripe and Paystack payment flows, SEO-optimized Next.js frontend, and a REST API backend serving 500+ active users.

Dara Recovery — Recovery Coaching Platform

dararecovery.com

Remix (React Router) | TypeScript | OpenAPI | REST APIs | Tailwind CSS

- Built the UI and integrated all backend APIs for a platform connecting users with certified recovery coaches for accountability and progress — no waiting list, immediate access. Features coach matching, mood tracking, and one-on-one video sessions.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), TypeScript, React.js, Redux, Zustand, React Query, Remix
Mobile	React Native, Expo, Expo Application Services (EAS)
Backend & APIs	Node.js, Express.js, MongoDB, PostgreSQL, Prisma ORM, REST APIs, GraphQL, WebSockets, WebRTC (Agora, LiveKit), Tavus, OpenAPI
Payments	Paystack, Stripe, Flutterwave
AI and ML	Python, LangChain, Hugging Face, Generative AI
DevOps & Tools	Git, GitHub, Docker, Postman, Swagger, Vite, Sentry, ESLint, Prettier, Figma, ClickUp

EDUCATION

Bachelor of Engineering — Michael Okpara University of Agriculture, Umudike

September 2016 – November 2021

Second Class Upper Honours | GPA: 3.82/5.0 (equivalent to 2:1, Nigerian grading scale)
